FOOD

The food is dominated by flour products: soup and porridge of barley groats and flour. Use a lot of salted fish, especially herring.

The climate

The climate is temperate, transitional from maritime to continental: along the Baltic coast - the sea, away from the sea - closer to the moderate-continental. Due to the influence of marine air masses weather is changeable, and can often be changed several times a day, especially in spring and autumn. Due to the shallow water, the water in the sea and lakes warms up quickly and comes in July to + 20-24 C, the beach season lasts from early June to late August. The best time to visit the country - from the beginning of May to mid-October.
