

How do we teach children kindness

**Friendship and kindness live only where trust in them!**

**Kindergarten Tareke**

# We always support each other

# Listen, comforting, peace, and create a sense of security

**The ability to notice the beauty in small things will make the world a beautiful place.**

# Small details make us happier.

The appearance does not mean  
anything.

Different from us does not hurt me.

# We make no difference

**Not a single person, it is large or small, can not remain alone in his concerns.**

**We respect and help old people.**

**We learn to be merciful to the people.**

# Performance children a house for aged.

Older people were touched by the children's attention.

**We learn to help their parents at home.**

# We learn to care for our younger brothers

# Participation in the urban cross country. Charity Event.

The charity event to help sick children.

# **Learn to perform good actions.**

The most important thing in education - to teach the child to enjoy what he is helping or taking care of someone. Should not glorify. There is enough normal approval: such behavior should be the norm for a child everyday.

# Teach the child to name the feelings right words

For example: "I have a good mood today," "I feel bad", "I feel good ... it hurts ... fun ... sorry ... like," "I'm scared ... I'm very happy ... happy ... angry ... disappointed."  
When a child hears, my mother talks about his conditions, he will learn from it.

# Lessons of kindness

The concept of kindness - not as easy as it seems. However, each of us can distinguish between good and evil deeds. Teaching good early childhood, the child you bring up good: it will become a part of his personality, the basis of character. Well, when, goodness training is carried out in the complex: a lot of talk, read and discuss the book together, learn from the good cartoons. The best lesson of kindness - his own example.
